FX2N

FX2NC

It will be too late after the occurrence of the fault!

The necessity and merit of renewal

There is a limit on the service life of parts. Deterioration of parts caused by aging and the operating environment will cause malfunction and failure.

In addition, if you continue to use the deteriorated product, the following troubles may be encountered...

- Due to long repair time, production lines in the factory will stop.
- It takes a long time to procure parts and secondary loss becomes larger.

Reconstructing programs

If the repair acceptance period has ended, the loss becomes larger!

Selecting replacement models

But, renewal is difficult, isn't it?

No problem!

Mitsubishi Electric Corporation will firmly support you. Please feel free to ask us!

MITSUBISHI ELECTRIC CORPORATION
