## ■7.5kW(10馬力)機種

|     |    | ECOV-D75A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN75C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|----------------------------------|------------------------------------|--------|
| 能力  | kW | 7.8                              | 7.4                                | 105.4% |
| 入力  | kW | 10.0                             | 10.3                               | 97.7%  |
| COP | -  | 0.78                             | 0.72                               | 107.9% |

## ■9.8kW(13馬力)機種

|     |    | ECOV-D98A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN98C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|----------------------------------|------------------------------------|--------|
| 能力  | kW | 8.7                              | 8.3                                | 104.8% |
| 入力  | kW | 11.4                             | 11.8                               | 96.3%  |
| COP | -  | 0.77                             | 0.70                               | 108.9% |

## ■11.0kW(15馬力)機種

|     |    | ECOV-D110A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN110C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 9.7                               | 9.2                                 | 105.4% |
| 入力  | kW | 12.8                              | 13.1                                | 97.6%  |
| COP | -  | 0.76                              | 0.70                                | 108.1% |

## ■15.0kW(20馬力)機種

|     |    | ECOV-D150A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN150C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 15.6                              | 14.9                                | 104.7% |
| 入力  | kW | 20.3                              | 20.8                                | 97.5%  |
| COP | -  | 0.77                              | 0.72                                | 107.4% |

## ■18.5kW(25馬力)機種

|     |    | ECOV-D185A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN185C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 17.5                              | 16.5                                | 106.1% |
| 入力  | kW | 23.1                              | 23.5                                | 98.1%  |
| COP | -  | 0.76                              | 0.70                                | 108.1% |

## ■22.5kW(30馬力)機種

|     |    | ECOV-D225A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN225C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 18.4                              | 17.3                                | 106.4% |
| 入力  | kW | 24.6                              | 25.1                                | 97.8%  |
| COP | -  | 0.75                              | 0.69                                | 108.7% |

## ■27.0kW(36馬力)機種

|     |    | ECOV-D270A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN270C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 24.4                              | 22.7                                | 107.5% |
| 入力  | kW | 31.3                              | 32.0                                | 97.8%  |
| COP | -  | 0.78                              | 0.71                                | 109.9% |

## ■30.0kW(40馬力)機種

|     |    | ECOV-D300A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN300C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 25.7                              | 24.4                                | 105.3% |
| 入力  | kW | 35.7                              | 36.5                                | 97.9%  |
| COP | -  | 0.72                              | 0.67                                | 107.6% |

## ■33.5kW(45馬力)機種

|     |    | ECOV-D335A(-BS,-BSG)(-R)<br>(新機種) | ECOV-EN335C1(-BS,-BSG)(-R)<br>(旧機種) | 旧機種比   |
|-----|----|-----------------------------------|-------------------------------------|--------|
| 能力  | kW | 27.6                              | 26.3                                | 104.9% |
| 入力  | kW | 39.7                              | 41.0                                | 96.8%  |
| COP | -  | 0.70                              | 0.64                                | 108.4% |

<条件> 周囲温度:40℃、蒸発温度:-40℃、吸入ガス温度:18℃、周波数:各機種最大
